COMMERCIAL LINES

Commercial AUTO

Choosing Commercial Auto Coverage from Preferred is one of the best business decisions you can make. Our competitive rate structure, combined with underwriting knowledge and flexibility, allows you to offer your business customers both value and specificity in their auto coverage.

A Companion Policy Discount, when the supporting BOP or CPP is also with Preferred, offers the opportunity for even lower pricing. And our ASCEND technology means you'll have fast answers through an automatic upload with rate and issue functionality.

Ask your Commercial Underwriting team about the following additional features:*

- Experience Rating Credits (NH and NJ only)
- Renewal "No Loss Credit" (NJ only)
- Schedule Rating on Auto Liability and Physical Damage
- Symbol 1 (Available for eligible classes)

*Not available in MA. All descriptions of coverage are subject to the actual provisions of the policy, which should be consulted to determine whether any given loss is covered.
